LOCAL AND PERSONAL

METHODIST CHURCH.

When the Titanic sank the name of God was on every lip, and heroic musicians went into eternity playing a hymn. In the hour of calamity the mind turns to God and looks to him for mercy. When the dread hour of sorrow comes we would remember that the Church stands ready to fulfill her ministry of comfort. The servants of the gospel await the call of the needy, in the hour of distress, sickness or death. While we are enjoying the many blessings of the Lord God, may we give to this Institution that God has brought into being our devotion and co-operation in its ministry.

The question is not only do YOU need the Church; but does the Church need you? Are you spending your time and giving yourself to other things when in truth you should be giving that time, talent and devotion to the Church.

Have you ever asked yourself the question: "If every member of my Church was just like me what kind of Church would my church be?" No moral and upright person would want to live in a town where there were no Churches. The Church of Jesus Christ is the great stabilizing power in the land. Every upright citizen should be giving himself to help make the Church even a greater power for good in our country.

The Church affords the opportunity for every one, regardless of their station in life, to help in the upward reach for a better and holier state in this life and also to harmonize their lives with the world about them. God through Jesus the Lord is reaching out after all those who need and those of us who do not need.

In the words of one of our great leaders, we make our invitation to you.

JOHN HENRY TEN YEAR OLD SON OF MR. AND MRS. RAY L. JENNINGS, HONDO, TEXAS

IN THE FORESTRY ARMY.

Following is Medina County's contribution to President Roosevelt's forestry army: John L. Mecher, Cornelius Mangold, Sylvan Tschirhart, Hugo Naegelin, Paul Haass, Narvel Mangold, Joe Hoog, all of Castroville; Lawrence Reyman, George Pichot, Edwin Sauter, Thomas Garteiser, Clarence Haass, Roy Embry, all of Hondo; William Rudinger, Charles Rieber, Joe Fillingier, Leander Rudinger, Sebastian Wolff, Alvin Wolff, Maurice Hubbard, all of D'Hanis; Ralph McCaughan, Leo Pettis, William Wheeler, all of Yancey; Seeley Rackley, J. DeLaney McCulloch, Melvin O'Neill, Earl Smoot, George B. Killough, all of Devine.

Most if not all of the boys were sent to Arizona.

There were more applied down than there were places in the quota to be filled, and some were very much disappointed.

ATTENTION, ROYAL ARCH MASONS.

There will be a regular meeting of Hondo Chapter of Royal Arch Masons at the Masonic Hall next Tuesday night, June 13, 1933. The annual election of officers will take place and other important matters will be transacted.

All members are requested to attend.

Attention is called to the announcement elsewhere of the Trades Day June 14th. Come early, do your trading and be on hand promptly for the premium awards.

BAPTIST NEWS NOTES.

Despite the demoralizations of the vacation period, matters at the Baptist church are moving on hopefully. The Bible school has not declined, either in attendance or in fine spirit. The Lord has supplied capable teachers to take the place of our fine ones who left us at the end of May. Mr. W. T. Crow is holding on in a fine way, as Superintendent. Mr. and Mrs. W. E. Still are proving themselves to be ready, willing and capable helpers all along the line. Only a few of our very own seem to have forgotten the Lord who bought them. We extend them an urgent invitation to their place of usefulness in the ranks of the faithful. Christ on the Cross will be the tremendously arresting subject for study next Sunday morning. Let us all be on hand, to study the wondrous scene. Since God so loved us, we ought also to love Him and also one another. And we shall.

At eleven o'clock in the morning, the Pastor will speak on The Faithful Christians Glorious Upward Climb. Better come. It will do us all good to have you on hand. The deacons will have a special matter to present to us. We will also have special inspiring music. The work inaugurated among the Mexican people, by the Pastor, and encouraged by many good people, is moving on most hopefully. These people have much spiritual fervor and deep love for the Holy Scriptures. They should have the sincere encouragement of all lovers of religious freedom.

Our young peoples' meetings gather at 7:30 each evening, both senior and junior. We rejoice greatly at the bright prospects of our young people, as being real forces for Christ and his glorious Cause. The Pastor urges our young folk to prove themselves real helpers to every good word and work, for our Savior. The regular services-preaching by the Pastor will be held at 8:15 P. M. Let us all gather. Let the men leave their coats at home. Be comfortable. The services will be cut short by 15 minutes.

PLEASE HEED THIS CALL.

Texas Democratic National Committee Stephen F. Austin Hotel Austin, Texas

June 6, 1933.

Mr. Fletcher Davis, Hondo, Texas.

Dear Mr. Davis:

I am writing all the County Chairmen in Texas who have not already completed their quotas to please use every effort to do so by June 15th. There has recently been a very substantial advance in the price of all commodities; wheat, corn, cotton, wool, mchair, cattle, and hogs. These various commodities, agriculture and its byproducts, have enjoyed a fine upturn that has added millions of dollars to the resources of Texas. The man who is responsible for this return to normal conditions is our great leader and President, Franklin Delano Roosevelt.

There was created last fall by the Democratic National Committee, a deficit amounting to more than \$800,000, of which Texas was given a quota of \$75,000. We believe this is a just debt, and should be paid at once. Texas' record of last fall, first in democratic plurality and second in the amount of money contributed, should by all means be maintained, and Texas be one of the first states in the Union to pay her deficit in full. Therefore, we ask that you contact the various loyal democrats of your county, and urge that they show their appreciation of the loyalty, sincerity and leadership displayed by our President, and raise their quotas and remit to this office not later than June 15th, if possible.

Again thanking you for the fine interest shown in the National campaign, and trusting you will heed the call of this letter, I am,

Sincerely yours, FRANK SCOFIELD, Director of Finance.

The publication of this call is our only means of contacting the "loyal democrats" of the county, as we have no time to make personal solicitation. Below we publish the present status of the fund. If you want to change that status hand or send to us your contribution. Don't wait to be hurtled up and buttonholed or it. Probably our last remittance will be the one we will make on or about the 15th instant.

RE-FINANCE FARM MORTGAGE.

It is reported that the first loan from the \$200,000,000.00 fund appropriated by Congress to re-finance farm mortgage indebtedness and to aid the farmers to redeem their foreclosed farms, was made in Texas this week. The loan was for the amount of \$3,000.00, and was made to a farmer and stockman of Brazoria county, who has resided in that section for a number of years.

A. P. Graves, Agent of the Farm Loan Commissioner, Houston, Texas, reports that although they have been somewhat hampered by a large volume of correspondence addressed to his office, the Texas division is now organized and in position to handle incoming business with dispatch. Mr. H. E. Haass has been requested to act as his local correspondent for Medina county and all eligible farmers entitled to assistance through this division may call on him, and he will gladly render such assistance as he can.

THURSDAY BRIDGE CLUB.

Mrs. H. J. Meyer entertained the Thursday Bridge Club last Thursday afternoon in an intimate little party on the shaded and cool front porch of her home with its natural decorations of shrubs and pot plants in bloom.

High score prize was won by Mrs. L. E. Heath and second high by Mrs. Horace Bradley.

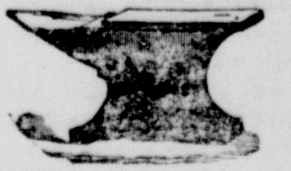

A delicious refreshment course was served.

Those present were Mesdames John Becker, T. B. Knopp, W. H. Smith, O. B. Taylor, R. J. Noonan, L. J. Brucks, L. E. Heath, Horace Bradley, O. H. Miller, Earl Starnes, E. J. Leinweber, J. M. Finger, and the hostess, Mrs. Meyer.

Who most loves to show himself brave
Finds his best chance when times are grave!

Some folks pinch a penny so tight
their own self-respect oozes out!

There are few disappointments
more poignant than to have expected too much!

One of the worst weaknesses of humanity is our proneness to measure all the values of life in dollars and cents!

It's a wise man who always treats the other fellow so he won't be ashamed afterwards to receive a favor from him!

One wrong tolerated almost inevitably leads to the perpetration of another. Witness the repudiation of the gold clause contracts in this country. It was wrong to permit discrimination against the government's "legal tender" in the first place. The crime of '73 thus becomes the shame of '33.

There's a gink here in Texas named Amon
Who, 'cause of an itch to get his name on
The front pages of the papers,
Cuts many asinine capers
And more the fame the more shame on Amon!

Last week's Carrizo Springs Javelina besides carrying a page advertisement of its trades day also carried the advertisements of some dozen or more local business firms, each mentioning the event and offering special bargain sales for that day. In addition to the regular business features of the event a rodeo was also announced for the entertainment of the visitors. And some of the circular matter advertising the day was circulated as far away as Hondo. It goes without saying that such wide publicity attracted a vast crowd, that all found some interesting entertainment or diversion in the program, and every one who took advantage of one or more of the bargain offerings went away happy and satisfied at having profited whether he won a capital prize in the lottery or not.

June Farming has gone to its readers. To those old-timers who used to enjoy the snappy writings of Col. R. R. Claridge in his San Antonio Claridge's Stock-Farmer, it was of especial interest, for his "Country Talk" and "Parsgraphic Pot-Shots" features in that number will remind them of old times. The scolding winds among the pine trees of his East Texas home may soften the melody of the tune he plays but there is still plenty of rosin in his bow. Don't miss his next tune in our July number.

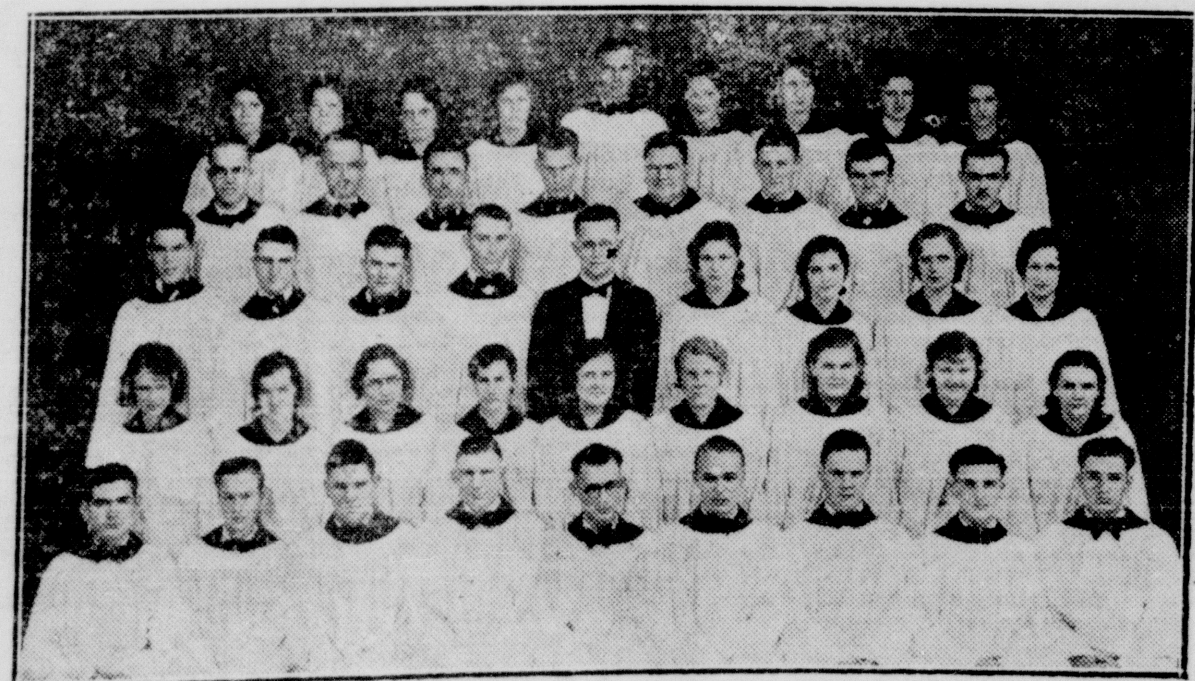

This is the last time this paper will carry the four proposed amendments to the state constitution that will be voted on August 26th. These amendments propose some far-reaching changes in our fundamental law and should not be regarded lightly. Every voter owes it to himself, to his neighbors, and to his country to study them carefully and vote on them honestly. That is the obligation imposed on every one who would enjoy the blessings of good government.

The Texas Legislature has adjourned after the longest continuous session on record. Anomalous as it is, despite its long labors, it is to be both commended and censured for what it did not do. It refused to pass any sales or income taxes, for which it is to be commended; it failed to make proper and needed reductions in state expenses by making proper eliminations and consolidations in state jobs and it didn't make others elective instead of appointive, for which it should be censured.

Friends of Representative A. P. Johnson of the 77th District are happy to learn that he is recovering his health. Mr. Johnson suffered a severe attack of illness in the midst of his duties as a member of the 43rd Legislature and great uneasiness was felt for him for many weeks. He had sufficiently regained his strength to be in attendance at the last days of the session but recently closed.

IT ISN'T ANY USE—

To look for your reward in gratitude.
To waste time wishing for the unattainable.
To hope to escape criticism.
To count the value of a harvest lost.
To look for perfection in the imperfect.
To expect to never be misjudged.

TEXAS LUTHERAN COLLEGE CHOIR.

TEXAS LUTHERAN COLLEGE CHOIR ON SUMMER TOUR.

A selection of the sixteen best voices has been made of the famous capella choir of Texas Lutheran College. This choir will tour the state during the month of June. The following itinerary has been completed:

Lund, Round Rock, Austin, Pflugerville, Elgin, Thrall, Thorndale, Rockdale, Buckholts, Caldwell, Som-

merville, Bellville, Rosenberg, El Campo, Ganado, Columbus, Weimar, Schulenburg, Shiner, Moulton, Yoakum, Victoria, Goliad, Beeville, Corpus Christi, Mercedes, Mexico, Alice, Orange Grove, Kenedy, Runge, Karnes City, Floresville, Pearsall, Hondo.

According to this schedule the choir will appear in Hondo, Texas, at the Hondo High School Auditorium at 8 o'clock on June 29, 1933, under the auspices of St. Paul's Lutheran Church of Hondo.

The same program that was recently given by the entire choir on its Spring Tour will be rendered.

Prof. H. E. Gibson, who has won fame throughout the state as a choir director will again direct the choir.

President Wm. F. Kraushaar will accompany the choir and will make a short address on Higher Christian Education.

No admission will be charged but an offering will be received to defray the expenses. The general public is heartily invited.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS.

S. J. R. No. 3.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of Texas be amended by adding thereto a section to be Section 3, which shall provide:

"Section 3. (1) Holding the belief that the highest degree of local self government which is consistent with the efficient conduct of those affairs by necessity lodged in the Nation and the State will prove most responsive to the will of the people, and result to reward their diligence and intelligence by greater economy and efficiency in their local governmental affairs, it hereby is ordained:

"(2) Any county having a population of sixty-two thousand (62,000) or more according to the then last Federal Census may adopt a County Home Rule Charter, to embrace those powers appropriate hereto, within the specific limitations hereinafter provided. It further is provided that the Legislature, by a favorable vote of two-thirds of the total membership of both the Senate and the House of Representatives, may authorize any county, having a population less than that above specified, to proceed hereunder for the adoption of a Charter; however, as a condition for such authorization, it is required that notice of the intent to seek Legislative authority hereunder must be published in one or more newspapers, to give general circulation in the county affected, not less than once per week for four (4) consecutive weeks, and the first of such publications shall appear not less than thirty (30) days next prior to the time an Act making proposal hereunder may be introduced in the Legislature. No County Home Rule Charter may be adopted by any county save upon a favorable vote of the resident qualified electors of the affected county. In elections submitting to the voters a proposal to adopt a Charter (unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature) the votes cast by the qualified electors residing within the limits of all the incorporated cities and towns of the county shall be separately kept but collectively counted and the votes of the qualified electors of the county who do not reside within the limits of any incorporated city or town likewise shall be separately kept and separately counted, and unless there be a favorable majority of the votes cast within and a favorable majority of the votes cast without such collective cities and towns, the Charter shall not be adopted. It is expressly forbidden that any such Charter may in any way affect the operation of the General Laws of the State relating to the judicial, tax, fiscal, educational, police, highway and health systems, or any other department of the State's superior government. Nothing herein contained shall be deemed to authorize the adoption of a Charter provision inimical to or inconsistent with the sovereignty and established public policies of this State, and no provision having such vice shall have validity as against the State. No Charter provision may operate to impair the exemption of homesteads as established by this Constitution and the Statutes relating thereto.

"(3) a. A Charter hereunder may provide: the continuance of a County Commissioners' Court, as now constituted, to serve as the governing body of a county to operate hereunder; or, may provide for a governing body otherwise constituted, which shall be elective, and service therein shall be upon such qualifications, for such terms, under such plan of representation, and upon such conditions of tenure and compensation as may be fixed by any such Charter. The terms for service in such governing body may exceed two (2) years, but shall not exceed six (6) years. In any event, in addition to the powers and duties provided by any such Charter, such governing body shall exercise all powers, and discharge all duties which, in the absence of the provisions hereof, would devolve by law on County Commissioners and County Commissioners' Courts. Further, any such Charter may provide for the organization, reorganization, establishment and administration of the government of the county, including the control and regulation of the performance of and the compensation for all duties required in the conduct of the county affairs, subject to the limitations herein provided.

"b. A Charter hereunder may provide that Judges of County Courts (including that County Court designated in this Constitution), and Justices of the Peace be compensated upon a salary basis in lieu of fees. The jurisdiction of the County Court designated in this Constitution, and the duties of the Justices thereof, may be confined to that general jurisdiction of a probate Court which elsewhere is defined in this Constitution. The office of Justice of the Peace may be made either elective or appointive. Other than as herein provided, no such Charter shall provide for altering the jurisdiction or procedure of any Court. The duties of District Attorney and County Attorney may be confined to representing the State in civil cases to which the State is a party and to enforcement of the State's Penal Code, and the compensation of said attorneys may be fixed on a salary basis in lieu of fees.

"c. Save as hereinabove and hereinafter otherwise provided, such Charters, within the limits expressed therein, may invest the governing body to be established for any county electing to operate hereunder with the power to create, consolidate or abolish any office or department, whether created by other provisions of the Constitution or by statute, define the duties thereof, fix the com-

ensation for service therein, make the same elective or appointive and prescribe the time, qualifications and conditions for tenure in any such office; save, that no such Charter other than as hereinbefore authorized, shall provide to regulate the status, service, duties or compensation of members of the Legislature, Judges of the Courts, District Attorneys, County Attorneys, or any office whatever by the law of the State required to be filled by an election embracing more than one county. Excepting herefrom nominations, elections or appointments to offices, the terms whereof may not have expired prior to the adoption of this Amendment to the Constitution, at such time as a Charter provision adopted hereunder may be in effect (save as to those offices which must continue to be elective, as herein elsewhere specified), all terms of county officers and all contracts for the giving of service by deputies under such officers, may be subject to termination by the administrative body of the county, under an adopted Charter so providing, and there shall be no liability by reason thereof.

"d. Any county electing to operate hereunder shall have the power, by Charter provision, to levy, assess and collect taxes, and to fix the maximum rate for ad valorem taxes to be levied for specific purposes, in accordance with the Constitution and laws of this State, provided, however, that the limit of the aggregate taxes which may be levied, assessed and collected hereunder shall not exceed the limit or total fixed or hereafter to be fixed, by this Constitution to control counties, and the annual assessment upon property, both real, personal and mixed, shall be a first superior and prior lien thereon.

"e. In addition to the powers herein provided, and in addition to powers included in County Home Rule Charters, any county may, by a majority vote of the qualified electors of said county, amend its Charter to include other powers, functions, duties and rights which now or hereafter may be provided by this Constitution and the statutes of the State for counties.

"(4). Any county operating hereunder, shall have the power to borrow money for all purposes lawful under its Charter, to include the refunding of a lawful debt, in a manner conforming to the General Laws of the State, and may issue therefor its obligations. Such obligations, other than those to refund a lawful debt, shall not be valid unless authorized by a majority of all votes cast by those resident qualified voters of the area affected by the taxes required to retire such obligations, who may vote thereon. In cases of county obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at any one time, exceed the then existing Constitutional limits for such obligations and such indebtedness and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there be levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits.

"(5) Such Charter may authorize the governing body of a county operating hereunder to prescribe the schedule of fees to be charged by the officers of the county for specified service, to be in lieu of the schedule for such fees prescribed by the General Laws of the State; and, to appropriate such fees to such funds as the Charter may prescribe; provided, however, no fee for a specified service shall exceed in amount the fee fixed by General Law for that same service. Such Charters as to all judicial officers, other than District Judges, may prescribe the qualifications for services, provided the standards therefor be not lower than those fixed by the General Laws of the State.

"(6) a. Subject to the express limitations upon the exercise of the powers by this subdivision to be authorized, such Charters may provide (or omit to provide) that the governmental and/or proprietary functions of any city, town, district or other defined political subdivision (which is a governmental agency and embraced within the boundaries of the county) be transferred, either as to some or all of the functions thereof, and yielded to the control of the administrative body of the county. No such transfer or yielding of functions may be effected, unless the proposal is submitted to a vote of the people, and, unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature, such a proposal shall be submitted as a separate issue, and the vote within and without any such city, town, district, or other defined governmental entity, shall be separately cast and counted, and unless two-thirds of the qualified votes cast within the yielding defined governmental entity, and a majority of the qualified votes cast in the remainder of the county, favor the proposed merger, it shall not be effected. In case of the mergers hereby authorized, without express Charter provision therefor, in so far as may be required to make effective the object of the proposed merger, the county shall succeed to all the appropriate lawful powers, duties, rights, procedures, restrictions and limitations which prior to the merger were reposed in, or imposed upon, the yielding governmental agency. Particularly, it is provided that the power to create funded indebtedness and to levy taxes in support thereof may be exercised only by such procedures, and within such limits, as now are, or hereafter may be, provided by law to control such appropriate other governmental agencies were they to be independently administered. Such

mergers may be effected under proposed contracts between the county and any such yielding governmental agency, to be approved at an election as hereinbefore provided for. In order to increase governmental efficiency and effect economy the county may contract with the principal city of the county to perform one or more of its functions, provided such contracts shall not be valid for more than two (2) years.

"b. In case of the partial or complete merger of the government of a city operating under a Home Rule Charter, with the government of a county operating hereunder, those city Charter provisions affected thereby shall cease to control, and the county Charter provisions shall control.

"c. When any embraced incorporated city or town elects to merge its governmental functions with those of the county under the provisions hereof, such Charter may provide for defining or redefining the boundaries of such cities and towns, provided, however, that in defining or redefining the boundaries of such cities and towns, such boundaries may be extended only to include those areas contiguous to such cities as are urban in character; and as to such cities or towns and for the benefit thereof the county, in addition to the primary city and county tax herein authorized and any other lawful district tax, may levy and collect taxes upon the property taxable within such city or town as defined or redefined, within the limits authorized by Sections 4 and 5 of Article XI of this Constitution, (or any Amendment thereof) for incorporated cities according to the population, provided that no tax greater than that existing at the time of such merger or for any added purpose shall be imposed upon any such city or town unless authorized by a majority of all votes cast by the resident qualified voters of such city or town.

"d. Areas urban in character though not incorporated, under appropriate Charter provision may be defined as such by the governing body of the county, provided, however, that no portion of the county shall be defined as an urban area unless it has sufficient population to entitle it to incorporate under the then existing laws of the State; and no such urban area, when created, shall be vested with any taxing or bonding power which it would not possess if it were operating as a separate incorporated unit under the then existing Constitutional and Statutory provisions of this State; and provided further that the governing body of the county for the government of such areas shall have and exercise all powers and authority granted by law to the governing bodies of similar areas when separately incorporated as a city or town, and such areas shall be subject to additional taxation within the same Constitutional limits as control taxation for a city or a town of like population. Likewise such Charter may provide for the governing board of the county subject to existing Constitutional and statutory provisions to define, create and administer districts, and have and exercise the powers and authority granted by the Constitution and laws relative to the same.

"(7). No provision of his Constitution inconsistent with the provisions of this Section 3, of Article IX, shall be held to control the provisions of a Charter adopted hereunder, and conforming herewith. Charters adopted hereunder shall make appropriate provision for the abandonment, revocation, and amendment thereof, subject only to the requirements that there must be a favorable majority of the vote cast upon such a proposal, by the qualified resident electors of the county; and, no Charter may forbid amendments thereof for a time greater than two (2) years. The provisions hereof shall be self-executing, subject only to the duty of the Legislature to pass all laws (consistent herewith) which may be necessary to carry out the intent and purposes hereof. Further, the Legislature shall prescribe a procedure for submitting to decision, by a majority vote of the electors voting thereon, proposed alternate and elective Charter provisions."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all ballots shall have printed thereon the following:

"For the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

"Against the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

Each voter shall scratch out one of the above listed clauses on such ballot, leaving unscratched that particular clause which expresses his vote on the proposed Amendment to which it relates.

Section 3. The Governor of this State is hereby directed to issue the necessary proclamation ordering an election in conformity herewith to determine whether or not the proposed Constitutional Amendment set forth herein shall be adopted, and the Governor shall have the same published as required by the Constitution and laws of this State.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS.

S. J. R. No. 30.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That article 3 of the Constitution of the State of Texas be amended by adding thereto another section, Section 51a, which shall read as follows:

"Section 51a. The Legislature shall have power to authorize by law the issuance and sale of the bonds of the State of Texas, not to exceed the sum of Twenty Million (\$20,000,000.00) Dollars, bearing interest at a rate not to exceed Four and one-half (4½%) per centum per annum; and payable serially or otherwise not more than Ten (10) years from their date, and said bonds shall be sold for not less than par and accrued interest and no form of commission shall be allowed in any transaction involving said bonds. The proceeds of the sale of such bonds to be used in furnishing relief and work relief to needy and distressed people and in relieving the hardships resulting from unemployment, but to be fairly distributed over the State and upon such terms and conditions as may be provided by law and the Legislature shall make SUCH APPROPRIATIONS as are necessary to pay the interest and principal of such bonds as the same becomes due. The power hereby granted to the Legislature to issue bonds hereunder is expressly limited to the amount stated and to two years from and after the adoption of this grant of power by the people. Provided that the Legislature shall provide for the payment of the interest and redemption of any bonds issued under the terms hereof from some source other than a tax on real property and the indebtedness as evidenced by such bonds shall never become a charge against or lien upon any property, real or personal, within this State.

Section 2. The foregoing Constitutional amendment shall be submitted to the qualified voters of the State on the Twenty-sixth day of August, A. D. 1933, at which election all voters favoring such proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution providing that the Legislature may authorize the issuance of bonds of the State of Texas, not to exceed Twenty Million (\$20,000,000.00) Dollars, for relieving the hardships of unemployment and for the necessary appropriations to pay said bonds"; Those voters opposing said amendment shall write or have printed on their ballots the words, "Against the amendment to the Constitution providing that the Legislature may authorize the issuance of bonds of the State of Texas, not to exceed Twenty Million (\$20,000,000.00) Dollars, for relieving the hardships of unemployment and for the necessary appropriations to pay said bonds."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution for amendments thereto.

NOTICE OF THE PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS.

H. J. R. No. 43.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Subsection (a), of Section 20, of Article XVI, of the Constitution of Texas, be amended so as to hereafter read as follows:

"(a): The manufacture, sale, barter or exchange in the State of Texas of spirituous, vinous or malt liquors or medicated bitters capable of producing intoxication, or any other intoxicant whatever except vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight, (except for medicinal, mechanical, scientific or sacramental purposes) are each and all hereby prohibited. The Legislature shall enact laws to enforce this Section, and may from time to time prescribe regulations and limitations relative to the manufacture, sale, barter, exchange or possession for sale of vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight; provided the Legislature shall enact a law or laws whereby the qualified voters of any county, justice's precinct, town or city may, by a majority vote of those voting, determine from time to time whether the sale for beverage purpose of vinous or malt liquors containing not more than three and two-tenths per cent (3.2%) alcohol by weight shall be prohibited within the prescribed limits; and provided further that in all counties in the State of Texas and in all political subdivisions thereof, wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking effect of Section 20, Article 16, of the Constitution of Texas, it shall continue to be unlawful to manufacture, sell, barter or exchange in any such county or in any such political subdivision thereof, any spirituous, vinous or malt liquors or medicated bitters, capable of producing intoxication or any other intoxicant whatsoever, unless and until a majority of the qualified voters in said county or political subdivision thereof voting in an election held for such purpose shall determine it to be lawful to manufacture, sell, barter and exchange in said county or political subdivision thereof vinous or malt liquors containing not more than three and two-tenths per cent (3.2%) alcoholic content by weight, and the provision of this subsection shall be self-enacting."

Sec. 2. The foregoing Amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the fourth Saturday in August, 1933. At this election all voters favoring the proposed Amendment shall write or have printed on their ballot the following words: "For the Amendment to the Constitution of Texas, authorizing the sale of vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight." Those voters opposing said proposed Amendment shall write or

have printed on their ballot the following words: "Against the Amendment to the Constitution of Texas, authorizing the sale of vinous or malt liquors of not more than three and two-tenths per cent (3.2%) alcoholic content by weight."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for such election and to have same published as required by the Constitution and Amendments thereto.

S. J. R. No. 32.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1-a of Article VIII of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Article VIII, Section 1-a: Three Thousand Dollars (\$3,000.00) of the assessed taxable value of all residence homesteads as now defined by law shall be exempt from all taxation for all State purposes; provided that this exemption shall not be applicable to that portion of the State ad valorem taxes levied for State purposes remitted within those counties of other political subdivisions now receiving any remission of State taxes, until the expiration of such period of remission, unless before the expiration of such period the board or governing body of any one or more of such counties or political subdivisions shall have certified to the State comptroller that the need for such remission of taxes has ceased to exist in such county or political subdivision; then this Section shall become applicable to each county or political subdivision as and when it shall become within the provisions hereof."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words:

SPIVEY AND HUNTER TO SHIP GREEN CORN.

Manager Russell of the City Water
works informs The News that he has
been asked to connect the Spivey
Warehouse with city water; that it
is wanted by Thursday (today). Mr.
Spivey has large acreages of his own,
says there is a lot of irrigated corn
that is o.k. for shipping; and every
body will be glad to see shipments
start, as it will mean the employment
of many men and boys in gathering,
packing and loading cars.

MRS. DOROW DIED SUNDAY IN CALIFORNIA.

Mrs. Maggie Taylor received a mes-
sage Monday stating that her sister,
Mrs. A. E. Dorow, had died Sunday
in Selma, California, their home. She
was Miss Sallie Fullerton; leaves be-
side the sister here, three brothers,
J. W. and P. Y. Fullerton, of San An-
tonio and Horace Fullerton of Selma,
Cal.; the husband and two sons.

Messrs. H. E. Haass and H. V.
Haass, Joe and Oscar Bader, S. A.
Jungmann, and others whose names
we did not get, many of them bring-
ing their ladies, were here from Hon-
do for the funeral Tuesday after-
noon. The funeral was very large,
the procession being half a mile long
and many San Antonio cars being
seen in the procession.

MRS. J. J. WIPFF PASSES AWAY AT FARM HOME HERE.

Mrs. Annie Wipff, beloved wife of
Mr. John J. Wipff, aged 74 years, 11
months and 20 days, died at her farm
home late Sunday. Deceased was
born in Medina County, in the old
Francisco community, and had lived
here all her life, except a few years
in San Antonio. She was first mar-
ried to Joseph Delbrail, who died in
a few years, leaving her with two
small children; and in November
1885, she was married to Mr. Wipff.
The husband and four sons survive.
Edward Delbrail of Marfa; August
Wipff of Warsaw, Ill.; Charles Wipff
of San Antonio and Fritz Wipff of
Devine, with 11 grandchildren. She
is also survived by two brothers, Fritz
Weber of Utopia and Wm. Weber of
Marfa; by two sisters, Mrs. Regina
Schmidt of Hondo and Mrs. Emil
Kreiss of San Antonio; and a large
number of other relatives and all who
knew her as friends. Deceased had
been in bad health for several months
and five weeks ago suffered a stroke
of paralysis from which she never
was able to recover. She had been a
member of the Lutheran church from
early childhood; for the past six years
a member of Grace Lutheran church,
San Antonio. Dr. Paul Frederick
Heim, of Grace church, conducted a
solemn service at the home Tuesday
afternoon in the presence of a great
many relatives and friends. The re-
mains were then brought to the First
baptist church in Devine, where fur-
ner services were conducted by Ed-
ward W. L. Dunsen, other local mem-
bers taking part, and the ladies sing-
ing several sweet songs. At the cem-
etery the services were closed with a
prayer by Rev. W. Leibfarth, pastor
Lutheran church at Hondo, and many
of his congregation being present, as
well as people from all parts of the
county and from San Antonio. The
pall-bearers were O. K. and Oscar
Schmidt of Biry, R. Weber of Utopia,
E. Weber of San Antonio, Emmet
Kreiss of San Antonio and Charles
Bippert of Moore. The grave was
covered with many floral offerings.
She was a good neighbor, a loving
wife and a kind mother; the world is
poorer because of her home-going.

a painful accident last Tuesday while
working on a mill, tearing his second
finger off at the first joint. Tom
Watson rushed him to Hondo.

Mrs. J. A. Blackburn is spending
the week in San Antonio with relatives.

Mr. and Mrs. Jack Bilhartz and Mr.
and Mrs. Robert Poe spent Thursday
at Hondo. Mr. Bilhartz is staying a
few days under the care of a doctor.

Mr. Marvin Haass spent the week-
end with his cousins at Sanderson.

Biry School closed with a program
and party last Thursday night. Prof.
and Mrs. McCarley were called back
to teach the next term. Prof. and
Mrs. McCarley left for Mathis where
they will visit his mother before en-
tering summer school.

The Biry Sports have changed their
name to Bob Cats. The Bob Cats
were defeated by the Spindletop
Sports Sunday at Dunlay.

FROM YANCEY.

The appearance of the fields have
changed very much since our last re-
port. We have had three good rains
during the week. Roasting ears are
plentiful and gardens have revived,
so the farmers are not suffering for
want of something to eat.

A good many of our folks were at
Hondo last Saturday to be present at
the Seventh Grade Graduation.

Miss Dorothy Burgin is at home af-
ter several months teaching in Sabi-
nal. She has been re-elected.

Mrs. G. C. McAnnelly has been in
very poor health lately, but we are
glad to say that she is improving.

Mr. J. P. Nixon was quite sick last
Saturday night and it became neces-
sary for Dr. Meyer to see him, and
after the treatment he soon recover-
ed.

Prof. and Mrs. Roensch and Mr.
Parish went to Lytle Sunday to visit
the Hughes family, who have recent-
ly lost their five-year-old boy.

Miss Violet Worley of Uvalde is
visiting her sister, Mrs. Dan McCrea,
for a week, after returning from
Keene where she attended the gradu-
ation of Junior College.

Mr. and Mrs. Connelly of Three
Rivers visited Mr. Will Crane's fam-
ily last week-end. Mrs. Connelly was
formerly Miss Georgia Crane.

Mr. Berry and Mrs. Henderson of
California, relatives of Mr. Newton's
family, were here Sunday, and we

QUIHI NOTES.

Blessed are the poor in spirit: for
theirs is the kingdom of heaven.
Matth. 5: 3.

The term "poor" in spirit is re-
pulsive to most people. "Rich" sounds
more attractive. Rich in spirit, money
credit, health, glory, influence and
prestige, that seems more in keeping
with present standards. These riches
are not to be despised, but quite
often these are a snare, a danger.
They're apt to be idolized, and when
they vanish, often hope and courage,
even self-respect goes with them. The
Lord promulgated and Himself lived
a new standard, and removed the
stigma from poverty. He attaches a
promise to the poor in spirit, while
no promise is given to the rich
above. Who are these poor? The list-
less, indifferent, inactive and unam-
bitious? No. But those who realize
their utter lack of that righteous-
ness which counts with God. "Nothing
in my hand I bring, simply to Thy
cross I cling". This is the promise.

The next Luther League Program
on Sunday, June 11, bears every in-
dication of being rich and varied; in
fact, it has enough current power to
light up two special evenings. The
voluntary offerings contain some very
attractive features too. Our young
people are always glad to make a few
memories linger longer with joy and
incentive courage. Obey that impulse
and come over.

The meeting of the Ladies' Aid
was fairly well attended with some
twenty-two present plus a number of
guests. The business items were
handled with speed and fine harmony.
The religious and incentive numbers,
hymns, prayer, lessons, an impressive
little dissertation on Easter rites—
were not forgotten, and the hostes-
ses, Mesdames Jac. Oefinger, F.
Mumme and E. Hartman gave us a
fine display of their culinary skill and
kindness. Thank you. The com-
mittee appointed for that particular
visitation under discussion, is named
here: Mesdames Jac. Oefinger, L.

Balzen. The church choir has acted
favorably on the motion, and the
committee appointed there consists
of Misses Hulda Oefinger, Esther
Bohlen and Eileen Hartmann. These
committees will meet jointly and de-
vise detailed plans and designate time
for execution.

We are sorry to report that Mrs.

On June 1st, at 11:30 A. M. a very pretty wedding was solemnized at the home of Mr. and Mrs. A. J. Stricklin, 422 Kirk place, San Antonio, Texas.

The bride was Miss Edna Sprott, daughter of Mr. and Mrs. Sprott of Tarpley. The groom was Mr. Clarence Turner of Turner Ranch of Hondo.

The bride was daintily gowned in white embroidered organdy with white accessories.

Rev. R. T. Deel of Fruit avenue, Baptist church, San Antonio, Texas, performed the ceremony.

Only members of the family were present. After the ceremony a luncheon was served to Mrs. Tom Turner, Mrs. G. A. Stricklin, Mr. and Mrs. Sprott and two daughters, Mr. Lee Stricklin, Rev. R. T. Deel, and the bride and groom.

Mr. and Mrs. Clarence Turner are at home to their many friends on the Turner ranch, near Hondo.

This paper extends congratulations and best wishes to the happy pair.

Milton Falkenberg returned Tuesday from Wartburg Seminary, Dubuque, Iowa, where he has just completed his divinity course and is now a full fledged preacher. Milton does not know to what charge he will be assigned but hopes to soon be actively engaged in the work for which he has prepared himself. He will preach his first sermon since his return to Texas at Poth, in Wilson County, next Sunday. This paper congratulates this young preacher on having completed his preparation for his great work and wishes him God speed in its performance.

WEDDING OF INTEREST.

A wedding of much interest to our younger readers is that of Miss Ruby Neuman and Mr. Clarence Wright of Mirando City which was performed at Lockhart, Texas on May 19. The Reverend Hynce of the Lockhart Baptist church officiated.

After the ceremony the couple spent a short honeymoon in Houston and Galveston, after which they returned to Austin where the groom was attending the University of Texas.

The bride is the only daughter of Mr. and Mrs. George Neuman of Hondo. She attended Hondo High School and the High School in Rock Springs where she graduated last year.

The groom is the son of Dr. and Mrs. A. Wright of Mirando City and a brother of Mrs. Origin Crow of this place. He is a graduate of Hondo High and Texas University where he majored in Pharmacy and attained highest honors in his department.

After a brief visit with Mrs. Wright's parents Mr. and Mrs. Geo. Neuman, the young couple left early Thursday morning for a visit with the groom's relatives in Mirando City and vicinity.

The Anvil Herald joins their many friends in wishing them a long and happy married life.

Friends of the family will be pleased to learn that Mrs. Herbert Decker had sufficiently recovered from a recent operation at the Santa Rosa to be removed from the hospital last Monday to the home of her parents, Mr. and Mrs. Gus Batot, in San Antonio where she is now convalescing. Mrs. Decker was operated on for removal of gallstones and spent eleven days in the hospital. The operation was successful, and a complete restoration to health is confidently expected.

The big Diamond Jubilee celebration of the founding of the New Fountain Methodist church was held at that place last Friday, Saturday and Sunday. The program for the three days, as published in a recent issue of this paper, was carried out successfully and we understand the congregation and visitors had a most enjoyable time, but we have not been favored with a report of the affair.

BRIDE HONORED.

Mrs. Clarence Wright, who recently was honored with a delightful shower at the Fritz Heyen home Wednesday from 5:30 to 7 o'clock.

Hostesses for this charming affair were Mrs. Berta McCall and Miss Eleanor Heyen, Lillian Schroeder and Evelyn Kimmy.

The guests were seated in a semicircle on the lawn facing the honoree's chair, which was flanked by wicker baskets of crepe myrtle.

To the strains of Loehengrin wedding march, played by Miss Dorothy Zerr at the piano, the bride entered and was led to her place by Miss Eleanor Heyen.

After the bride was seated an entertaining program was given.

The program is as follows: Short Toasts by Eleanor Heyen, Evelyn Kimmy, Dwyce and Mary Hall, Cameron, Gladys Fusselman and the bride's mother, Mrs. George Neuman. Clarinet solo, Always, by Jeanette Merritt; vocal solo, For You, by Thelma Wilson; Flute Solo, Night in The Woods, by Merle McCall, accompanied by her sister, Miss Ivy Jean McCall at the piano; Vocal solo, At Dawning, by Mrs. Roland Gaines; Piano Solo, Waves of The Ocean, by Leora Horger.

The accompanist for the afternoon was Miss Dorothy Zerr.

Following the program Miss Lillian Schroeder approached the honor guest, carrying an apron and clothes basket. Cautioning the bride that her domestic tasks had begun, Miss Schroeder tied the apron around her and led her to an improvised clothes line hung with gaily wrapped gifts. After the gifts had been shown to the assembled guests the bride thanked everyone in her own sweet way and the hostesses, assisted by Mesdames Fritz Heyen, Fred Schweers and George Kimmy, served green and white brick ice cream with Angel Food Cake iced in green. Plate favors were rose buds.

Miss Evelyn Kimmy presided over the bride's pool.

The honoree, Mrs. Wright was dressed in white crepe carrying an old fashioned bouquet of Dorothy Perkins roses.

Mrs. Berta McCall was in blue and white print. Miss Schroeder wore pink chiffon with touches of blue.

Miss Heyen wore pale blue crepe with pink organdy jacket. Miss Evelyn Kimmy wore bouffant white organdy.

Mrs. Henry Wurzbach, Mr. and Mrs. Milton Wurzbach, Mr. and Mrs. Wurzbach and Miss Bernice Rihn of Richmond left last Friday for College Station where they attended the graduation of Ellis Wurzbach, from Texas A. and M. College. Mr. Wurzbach was a popular student at A. and M., was a member of the Koss Volunteers and ranked very high in the Cadet Corps.

Mrs. E. J. Murray returned Sunday from a month's stay in Houston, and after a week's visit here preparing to move her household goods, she will leave again to make her home with Mr. Murray and son, Victor, in Houston. She was accompanied out from San Antonio by Mr. and Mrs. Ernest Phillips who spent the day here.

The committee having the celebration in charge announce elsewhere in this paper an all-day program for Sunday, June 11th, at Echlin's grove, near LaCoste, honoring the feast of St. Boniface. For more details look up the announcement.

WOMEN'S CONTRIBUTION TO THE MOTOR CAR

There is some doubt that people care to hear very much about what goes on under the hoods of their cars.

The driver knows that "driving qualities" are not accidental; they are put there. How the manufacturer creates or evolves those results may not interest him. He judges entirely by the results he gets in driving.

Well, it is not essential to talk "shop"; let us talk Results. Smoothness. Drive the Ford V-8 and you will find that the engine runs with surpassing smoothness, due to its design and the extra precise methods of its manufacture.

Power. There it is, 75 horsepower (we could say 80) at the drive-shaft for the driver's use. With less weight to pull around, the mettle of this car—its life-like response—is rather remarkable.

Economy. Our V-8 develops more power on a gallon of gasoline than any car we have made. Mileage is partly a matter of individual driving, but under average conditions the Ford V-8 does 17 to 20 miles a gallon. Of course, car economy is not only a matter of fuel. Ford V-8 has that too, but it is also economical in the complete sense—initial cost, operation, maintenance.

Appearance. This is woman's contribution. The motor car must not only be useful, but also good-looking. View the Ford V-8 and you will not need our comment on its fine appearance.

Comfort. This also is woman's concern. In 30 years she changed the motor car from a wagon to a coach. Comfort is a quality made up of numerous ingredients. There is no comfort without a quiet, smooth-running engine. We have all the other ingredients too,—color, good taste, quality, ease, safety, roominess and convenience.

Underweight Children

Need More Iron in Their Blood!

Children who are thin and pale and who lack appetite are usually suffering from a deficiency of iron. When the blood lacks iron it becomes thin and poor and fails to nourish. Then a child loses appetite and becomes still thinner and weaker—and easy prey to disease!

To build up your child, give him Grove's Tasteless Chill Tonic. It contains iron which makes for rich, red blood. It also contains tasteless quinine which tends to purify the blood. These two effects make it an exceptional medicine for young and old. A few days on Grove's Tasteless Chill Tonic will work wonders in your child. It will sharpen his appetite, improve his color and build up his pep and energy and increase his resistance to disease. Grove's Tasteless Chill Tonic is pleasant to take. Children like it and it's absolutely safe for them. Contains nothing harmful. All stores sell Grove's Tasteless Chill Tonic. Get a bottle today and see how your child will benefit from it.

ADOLPH HARM ECKHART.

The deceased, Adolph Harm Eckhart, was born on August 13, 1893, at Sturm Hill, Medina County, Texas. He was the youngest child of Christian Eckhart and his wife Theresa, nee Wendland. When still an infant, he was taken from his mother about 8 or 9 months old the mother of the departed was taken from him in death. He was then committed to the charge of his elder brothers and sisters, who raised him until he became 8 years of age after which the eldest brother William cared for him until he became 14. At this time in his life the deceased left home to shift for himself.

At the time when the United States became involved in the World War, he became enlisted in the Navy. It was while serving his country during this war that he had an attack of the flu, from which he never fully recovered. Three years ago he was covered by his brother William and wife and made his home with them until the end came.

While still in infancy the deceased was baptized in the Bethlehem Lutheran Church at Quilhi. He was by this act blessed with the "washing of regeneration and renewing of the Holy Ghost," and became a child of God. The command of Christ to make disciples of all nations by baptizing them was fulfilled in his life. However, the further instructions of our Savior to follow this up with teaching could not be carried into effect as respects the deceased, owing to an abnormal state of mind. This explains the fact that he was never confirmed in the Lutheran Church. On July 3, 1927 the departed was placed on the roster of the St. Paul's Lutheran Church, Hondo, where he attended as a visiting member, also supporting the church.

During the last ten days of his life the departed suffered from an attack of sugar diabetes. In spite of medical aid and other care the end came on Wednesday, May 31, at 6:30 P. M. He attained the age of 36 years, 9 months and 18 days.

The deceased remained single all his life. Two sisters, namely Mrs. Anna Balzen and Mrs. Emma Bryant, preceded him in death. Those who remain to mourn his departure are two brothers, William from Hondo and Albert of Bandera, and three sisters, Helena H. Hardier of Trinity, Texas, Emily Ross from Tarpley, Texas, and Pauline Goodnight from Denver, Colorado. We extend warm sympathy for the bereaved and trust that they may find true comfort from above.

(May the Lord comfort the bereaved hearts and teach us all to number our days.)

Pallbearers were: Philip Eckhart, Andrew Eckhart, Albert Eckhart, Jr., Thomas Ross, Oscar Ross, Harry Balzen.

Services were conducted in the Harger Funeral Home.

Interment took place in the Oakwood cemetery, Rev. Leibfarth officiating.

FIVE TEXANS MAKE GOOD IN PICTURES.

How Texas talent is forging to the front in the movies is clearly shown in the super-musical comedy, "Gold Diggers of 1933." No less than five of the stars and featured roles in this important production are played by native Texans.

Joan Blondell of Denton, and Ginger Rogers of Fort Worth, are two of the "Gold-diggers" show girls who set out to "work" a couple of society men for jewels, expensive gowns and furs, cars and every possible luxury.

Guy Kibbee, a native of El Paso, again cast in the familiar role of a "sugar-daddy," and Robert Agnew of San Antonio is the director of the dance.

The fifth Texan in the cast is Muriel Gordon, who was born in Austin but spent her childhood and was educated in Dallas. Her name in private life is Sophia Durst, daughter of Mr. and Mrs. J. W. Durst. She is one of the chorus girls in the picture and also one of the 12 girls selected by Warner Brothers to participate in a national beauty contest. The winner of the contest, to be selected by the movie fans of the nation, will be given the opportunity to become a star in Warner pictures.

Since Texans predominate in the cast, it is only fitting that historic San Antonio should have been selected for the premiere Southern showing of "Gold Diggers of 1933." It opens for an indefinite run at the Empire Theatre in San Antonio on Friday, June 9.

CULTIVATE CORN INTELLIGENTLY.

By P. G. Holden,
Field Director, Agricultural Extension
Department, International
Harvester Company.

To a very great extent the size of the corn yield on any farm depends upon the manner of cultivation.

We should bear in mind that deep cultivation, early in the season, saves the moisture and that shallow cultivation, late in the season, saves the corn roots. It may be deep at first but it must be shallow later.

There are no rules that may be blindly followed for the growing of corn any more than for doing other farm work. There is no best method for all sections or for different soils, or even for the different fields of the same farm. Often different methods give equally good results. But there is one motto that should always be followed: Have good ground, do the work on time and do it thoroughly, cultivate intelligently.

We must remember that if left two weeks or longer the ground often becomes foul with weeds, which not only take up the moisture, but make it hard to work the corn. The ground is apt to become packed by the rain and baked by the sun until it becomes hard and dry and in poor condition.

Corn should not be stunted when young as it never fully recovers, even under the most favorable conditions. There should be frequent cultivation until the corn shades the ground and prevents the rain and sun from beating upon the soil and making it hard and dry. The time to kill weeds is before they come up; before they deprive the corn of moisture and nourishment. Where possible, we should cultivate the corn once before it comes up, following the cultivator with a harrow. This saves moisture, kills the weeds and keeps the ground from getting hard and cracked.

Deep cultivation the first time will not injure the roots of the corn and it is best to go deep enough to secure a bountiful mulch. The later cultivation should be no deeper than is necessary to keep the ground clean. It is very important that we disturb the roots as little as possible when the corn is laid by.

Generally, cultivation with a one-horse cultivator after the corn is too large for a two-horse cultivator is not good practice. Even though weeds may have gotten a start, they will do less damage than will the cultivator which will injure the plants by cutting the roots. This damage is frequently considerable through the breaking down of the corn.

Often the yield of corn is reduced and the work of cultivation made slow and difficult through carelessness in handling the planter. Uneven checking can be due to several causes. Generally, in a short field, we draw the wire too tight and the planter checks too quickly both ways. In a long field we are apt to check ahead because of the slack in the wire. This is especially true when the tongue of the planter is raised too high and the team walks fast. In an irregularly shaped field the checking is very apt to be bad especially when the ends of the field are not at right angles with the row. In these cases there will be a jog every four rows, the amount depending upon how much the field is out of square. Poor checking is often caused by carelessness in setting the anchor. It is common practice for us to draw the wire about so tight at both ends of the field. It is a better plan to set the anchor on a line at one end of the field and draw the anchor to tighten it at the other end.

ELECTRIC REFRIGERATION IN FARM HOMES.

By Zella Wigent,
Agricultural Extension Department
International Harvester Company.
The use of the home refrigerator is increasing rapidly over the country both in the town and in the farm homes where electric power is available.

The practice of putting up ice on the farm is fairly expensive as compared with electric refrigeration. When a favorable power rate for electricity is offered to the farm.

Many country homes are not located where it is possible to harvest ice. At best the harvesting of ice is a cold disagreeable task and the resulting product is not convenient to handle. Wherever power is available, and the income permits the electric refrigerator is installed.

There is a wide range of temperatures in home refrigerators. When the plant is installed the automatic control on the refrigerator can be adjusted to maintain any temperature that the buyer desires. From 40° Fahr. to 45° Fahr. is average.

In order to maintain this constant temperature it is obvious that more electricity must be used in hot weather than in cool weather.

The housewife has control over many factors which control the cost of running an electric refrigerator. The most important of these are:

1. The amount of hot food placed in the box to cool.

2. The temperature maintained in the cooling compartment as regulated by the setting of the thermostat.

3. The size of the refrigerator box.

4. The location of the refrigerator in relation to the kitchen range and other sources of heat.

5. The number of times the door of the refrigerator is opened during the day.

Two carloads, containing 117 head of choice Duro Jersey and Poland China hogs, were shipped recently from the Tierra Blanca Farms near Canyon to Senor El Terrazas, one of the largest stockmen in Mexico. All of the hogs are registered and will be placed on ranches in Central Mexico belonging to Senor Terrazas, grandson of the reputed wealthiest cattlemen in the world. The Tierra Blanca Farms are owned by McSpadden Brothers of Amarillo, breeders of registered Poland China, Duro Jersey and Hampshire hogs and registered Jersey and Hereford cattle. More than 1,400 hogs are kept on the farms at all times.

AFTER THAT, BETTY LIKED CEREALS AND WANTED MORE.

By Juliette Frazier.

Betty's finicky appetite had been her mother's greatest problem, and when Betty started to attend school, she was fifteen pounds underweight. When the school nurse discovered this, a note was promptly sent to Betty's mother, saying that evidently Betty was not receiving the proper food, and that more milk and hot cereals should be included in her diet.

This set Betty's mother thinking, knowing from past experience how useless it was to try to make Betty eat hot cereals for breakfast, and that scolding and nagging only made matters worse. However, she was anxious to carry out the nurse's directions, so the following morning a portion of the cooked cereal was added to the beaten yolk of an egg, a little sugar and a dash of nutmeg. This was then poured into a small baking dish and slipped in the hot oven until brown on top, so that when it was set on the table Betty mistook it for a pudding and ate every bit of it. This was occasionally varied by the addition of a tablespoon of ground chocolate, pink sugar or dates and raisins.

The milk which so often had been refused when served in a plain tumbler, vanished with remarkable rapidity when poured in a tall green lemonade glass, especially if the child was allowed to sip the milk through a straw. Occasionally the milk was set upon the table in a small pink china pitcher, and Betty was allowed to pour it "all by herself" into her dainty little pink cup. Betty was anxious to empty her cup so that it was not unusual for her to drink over a pint of milk at one meal.

In a short time Betty's weight began to increase. This meant better health, which in turn improved the child's appetite so that after a while it was no longer necessary to go through any extra work to prepare her meals.

A STORK PARTY.

By Juliette Frazier.

We have parties especially adapted to the enjoyment of the old folk, married couples, young people, children, even for little tots, and the ever popular parties which provides entertainment for all ages. But there are many mothers who are kept from attending any of these happy social events because they are hampered by

a small baby, or the lack of a capable nurse. It is for the sake of these mothers and their babies that I am giving the following suggestion for a party where both may have a share.

Since the month of May brings blossoms, and blossoms and babies are synonymous, this month offers the appropriate time for a Stork Party.

The decorations should be pink and white blossoms. The invitations may be sent on dainty pink cards, in the corner of which a stork, baby face, or other suitable design is pasted. The invitations should include mother and child, and the "at home" hours should be planned not to interfere with baby's nap.

The guests may be invited from three to five, and the refreshments planned to be served at four o'clock. A large stork made of papier-mache may serve as a centerpiece. (The manager of the Infant's department of one of the local dry goods stores probably will gladly loan such a stork to a responsible person.) From the stork's outstretched bill may be suspended a basket filled with an inexpensive gift for each child. White place-cards decorated with a stork, a baby or a spray of pink blossoms and tied with pink ribbons will harmonize with favors made by attaching tiny kewpies to the handles of small tins filled with pink and white candies. A white luncheon set with pink decorations will also help to carry out the pink and white color scheme. The refreshments for the mothers should include miniature cakes with pink icing and pink ice cream which may be served in frosted glass dishes. Each baby should be provided with a high chair, milk, bread and butter sandwiches, and sweet wafers for all over a year old and able to come to the table. A small pillow covered with pink cretonne tucked in each chair will help to make the wee guests more comfortable.

A few musical selections rendered by some of the local talent, a short pantomime, and a few old-fashioned cradle songs by some of the small children of the neighborhood will add an interesting note to the closing hour of the entertainment.

PREPARING FOR THE UNKNOWN.

By Arthur E. Morgan,
President of Antioch College.

Owen D. Young recently remarked that we are today in a similar situation to that of Christopher Columbus in 1492. When he started out he did not know where he was going, when he got there he did not know where he was, and when he got back he did not know where he had been.

Young men and women today are in a difficult position. They do not know where they are or where they are going. The ordinary callings may not continue to be what they used to be. There are today about enough doctors, lawyers, engineers, and architects, even if there were no depression. Yet there are five times as many students in college and professional schools as there were a generation ago. We shall probably have a great over-production of professional men and women during the coming years, and unless one is especially interested and competent in those fields, he or she had better think

twice before entering one of them. Many men and women have turned from other callings to teaching, only to find that profession, too, is overcrowded.

If we turn to the trades and crafts of our fathers' and mothers' days, we will find them, also, in a confused condition. Just as the old-fashioned stone mason disappeared with the coming of concrete, so it is probable that the building trades will soon largely disappear because houses will be built in factories out of new kinds of materials. Seldom a year passes but that some callings disappear because of new inventions or development. For instance, the craft of photo-engraving which has been one of the highest paid of all crafts, is just now suddenly disappearing because of the invention of a new process which does not require skilled workmen. Staying out of college to learn a skilled trade may not lead to security, because the trade may be obsolete almost as soon as it is learned. Yes, young people today, like Christopher Columbus, do not know where they are going. Yet Christopher Columbus succeeded, and the same conditions which carried him to success will help us today.

First, his theory was right. He was well informed. He knew what the scholars and scientists of his day were thinking about. Second, he had good experience. Think of the varied things Columbus had to do in order to succeed. He had to know how to sail a ship, to manage a crew, to plan ahead for a long voyage. He must have been a good speaker, or he could not have persuaded Queen Isabella. He knew foreign languages, for he was not himself a Spaniard.

Third, he made good preparation. If his water or food had run out, if his ship had been in bad repair, he would not have got there and back. Fourth, he had a great desire. He was turned down over and over again, but he wanted something badly enough to work for it against great discouragement. Lastly, he had courage. When everyone else lost courage, he did not. He could face a sullen crew and a desperate chance, and keep going.

Now, such qualities as these are not just inborn, and they do not spring up from nowhere. They grow gradually by constant exercise. They can be learned and developed by practice. If we can help young people to be well prepared for the unknown, as Columbus was, then the present condition will not lead to despair, but to interest and enthusiasm. The world is not finished. We also can have our chance to pioneer, just as our grandfathers did. Who can ask for more than that?

Texas ranked second in fur catch during 1930 among sixteen States for which figures are available, a release from Harold M. Young of the Dallas office of the Bureau of Foreign and Domestic Commerce, shows. Total of 1,190,400 pelts in 1930, reported by Texas trappers in 1930, including 756,592 possum pelts, 235,835 skunk, 75,867 muskrat, 45,317 raccoon, 11,633 ringtail, 19,908 fox, 11,490 mink and 3,878 badger pelts. Louisiana with 4,307,649 pelts, was first in volume of catch among the States reporting and Pennsylvania, with 1,008,614 was third.

Not The Right Approach to The Problem

If anything could teach the American people that the wrong approach to a subject only confuses and complicates it, the mess this country is in at the present time over the liquor problem should afford that convincing lesson.

With prohibition written into the national constitution and made a part of our fundamental law during a fit of war-time hysteria, when fundamentals should have remained inviolate, we seize upon a but little less inopportune time to endeavor to wipe it out.

So with an elaborate and expensive system of enforcement machinery set up and in operation, our congress appropriates vast sums of money to continue its enforcement and at the same time sets in motion a movement to have the states repeal the amendment and remove the occasion to enforce it.

The taxpayers pay for it all!

This expensive, farcical procedure may go on for seven years; it may end in repeal of the 18th Amendment and it may end in failure and leave confusion worse confounded.

And the taxpayers will pay and pay and pay while this goes on!

Meanwhile, the congress could have simplified matters and saved the taxpayers enormous expense by refusing to appropriate any more money for enforcement of the Volstead act and thus junking the whole useless enforcement machinery.

But while continuing to spend money in an already discredited effort to enforce prohibition, this same congress, for the sake of raising revenue for a financially embarrassed government, passes a measure declaring not intoxicating in a legal sense an alcoholic beverage that is intoxicating in fact.

Now it would seem like a blind man could see that if our Supreme Court of last resort holds the act valid in law our prohibition laws, national and state, would have no application any where to the sale of such beverage so defined; or on the contrary, should it hold with the fact that such beverage is intoxicating then the law would be invalid, null and void.

The rational thing would be to have the court pass judgment first of all.

Instead of that, breweries are pouring out a flood of foaming beer in some states while up at Austin, Texas, a bunch of wise birds have ordered the state put to a lot of expense to adopt an amendment to the state constitution which will be invalid should the court hold the beverage intoxicating or will permit the sale of a "soft drink" should the court hold it non-intoxicating.

Could folly reach heights of greater absurdity?

Meantime, the taxpayers pay for this!

At the same time that the Texas legislature is doing this, it sets up some more machinery—to be paid

for by the state's taxpayers—whereby the state will vote on whether or not the state will favor repeal of national prohibition, but it refuses to give the people an opportunity to express themselves on whether they wish to repeal the state prohibition amendment and thereby make—in the only way it can possibly be made—national repeal applicable to the state.

Absurdum ad nauseam!

In the meantime, in San Antonio one branch of the Federal government service sells permits to sell beer to whoever wants to buy and receives their money in the name of and for the government.

Then another service from the same government comes along and hails these same purchasers of permits into Federal court when they set themselves up to sell the beverage.

More absurd procedure!

And all this for no other purpose than to raise funds for an extravagant government to spend.

If liquor, which the founder of

Christianity made through his miraculous power while on his mission to earth, which he drank with his disciples and which he assured them he would drink with them in paradise, is the unmitigated curse some of that gentle, temperate teacher's modern followers claim it to be, all thought of stopping the evil is lost sight of in the one purpose to raise revenue.

If it is a harmless beverage bringing pleasure and happiness in its temperate use, there is no thought of protecting the people in their natural and rightful pursuit of happiness by simplifying their means of access to a pure and wholesome article but a devious effort to share in the profits of the traffic.

And here has been this government's weakness and error in dealing with the liquor problem from the beginning.

The first organized clash between this government's authority and its citizens was not over the inherent evils of liquor but a determination on the part of the government to

share in the profits of the traffic in it through means of a tax levied upon it.

Because these agrieved citizens did not obtain redress by having their problem settled RIGHT but were SUBJECTED, through superior governmental power, to the forced payment of a tax on an inherent right, we still have the problem with us and it grows more complicated with every act of new legislation touching it.

It is a trite assertion that no question is ever settled until settled right.

The only way to settle any question is through first of all the right approach.

The failure of the "noble experiment" to achieve its purpose to stop the use of all alcoholic liquor for beverage purposes, not to mention the multiplicity of resultant evils it brooded, should convince any reasonable person that that is not the proper line of approach to find a solution of the problem that confronts us.

To sensible people a new brood of
(Continued on last page.)

A TYPICAL TEXAS RANCH SCENE.

(Continued from first page.)

evils should not be necessary to convince them that the proper approach does not lie in the government's becoming a partner in the liquor traffic.

One of the best founded complaints against the evils of the liquor traffic was the strangle hold it had on politics.

Those of us who remember that, can but view with alarm the threat of some spokesmen of the administration to hold the club of increased taxes over already overburdened incomes unless the government can raise the needed money through a tax on the common man's mug of beer.

Thoughtful people can not help a feeling that the amount of revenue it will raise is going to be disappointing or remembering that it seldom if ever produces enough revenue to pay for its own enforcement much less assist in maintaining the government's other burdens.

And worst of all, if a greedy government exacts a toll too great the bootlegger with his poisons and the racketeer with his crimes will receive a new impetus and become more thoroughly entrenched in power as a consequence of a too high price for the legalized beverage.

Our present course does not point the way to a solution.

It merely adds to the confusion.

Our government must go back and rectify the error of the fathers in forcing an unwilling and unholy partnership between the liquor traffic and the government by washing its hands of any effort at revenue-raising.

It must exercise only the rightful function of government in seeing that its people are protected in their natural rights to enjoy a temperate use of a beverage of their liking as cheaply as they can produce it, unrobbed by those who would monopolize its manufacture and unpoisoned by those who would adulterate it.

That way and that way only offers the best means of minimizing the evils inherent in an abuse of liquor and invites the only rightful approach to a solution of the problem.

TITLE THREE, "EMERGENCY FARM MORTGAGE ACT OF 1933"

The President is granted unprecedented authority in the amendment of Senator Thomas (Dem. of Oklahoma) to H. R. Bill 3885, to expand the currency, if needed, in several ways to meet the economic emergency.

Title III of the bill sets forth the powers granted which are "conferred by section 8, of Article I of the Constitution: 'To coin money and to regulate the value thereof.' " The provisions of Title III, which include the silver amendment of Senator Wheeler (Dem. of Montana), are to be exercised by the President, "if, when or as" his judgment so directs. The powers are set forth under section 43, 44 and 45 of the measure.

Section 43, in substance, is as follows: "The President is authorized in his discretion to direct the Secretary of the Treasury to enter into agreements with the several Federal Reserve banks and the Federal Reserve Board" to permit the various Reserve banks "to conduct open market operations in obligations of the U. S. Government or corporations in which the U. S. Government is the majority stockholder," and purchase and hold such obligations for an agreed period or periods of time an aggregate sum of \$3,000,000,000. The purchase of these obligations must be in addition to those which the Reserve banks may be holding at the time the agreements are entered into.

Should the Secretary be unable to effect agreements between the Federal Reserve banks and the Federal Reserve Board as above authorized, or if such agreements are entered in-

to and the results inadequate to meet the purposes of section 43, as stated at the close of this article, then the President is authorized to direct the Secretary of the Treasury to issue United States notes at such time and in such amounts as the President may approve, but the aggregate amount shall not exceed \$3,000,000,000. Such United States notes, unlike the present greenbacks which contain a vitiating exception clause, "shall be legal tender for all debts, public and private." In other words, Uncle Sam's notes under the present act will become legal tender on a par with gold notes for the first time since the exception clause was inserted in 1862.

As stated by Senator Thomas, the passage of Title III of the "Emergency Farm Mortgage Act of 1933," which requires only the signature of the President to become law, the power to issue money and to extend credit is taken from the Federal Reserve banks and Wall Street and placed in the hands of Congress and the President.

All the United States notes under the act shall be issued only for "the purpose of meeting maturing federal obligations to repay sums borrowed by the United States and for the purchasing United States bonds and other interest bearing obligations of the United States."

All obligations acquired or taken up by the use of such United States notes shall be retired and canceled.

Provision is made for the retirement and cancellation annually of all outstanding United States notes at the rate of 4 per centum.

Title III of this act also empowers the President "by proclamation to fix the weight of the gold dollar in grains nine-tenths fine and also to fix the weight of the silver dollar in grain nine-tenths fine at a definite fixed ratio in relation to the gold dollar as such amounts as he finds necessary, upon investigation, to stabilize domestic prices or to protect foreign commerce against" detrimental "effect of depreciated foreign currencies." Furthermore, this title provides for the unlimited coinage of such gold and silver at the ratio to be fixed by the President as a result of his investigations. "In case the Government of the United States enters into an agreement with any government or governments under the terms of which the ratio between the value of gold and other currency issued by the United States and by any such government or governments is established, the President may fix the weight of the gold dollar in accordance with the ratio so agreed upon, and such gold dollar, the weight of which is so fixed, shall be the standard unit of value, and all forms of money issued or coined by the United States shall be maintained at a parity with this standard and it shall be the duty of the Secretary of the Treasury to maintain such parity, but in no event shall the weight of the gold dollar be fixed so as to reduce its present weight by more than 50 per centum."

Section 44 provides for the promulgation of rules and regulations covering such actions as the President may cause to be made in the above matter.

Section 45 of Title III authorizes the President to accept silver in the aggregate amount of \$200,000,000, at not more than fifty cents per ounce, from any foreign government in payment on account of any indebtedness to the United States.

A provision of this section requires that the Secretary of the Treasury shall issue silver certificates against silver dollars to be coined from the bullion accepted for foreign debts and such certificates shall be issued in payment of any obligations of the United States. A redemption feature in this section provides that redeemed certificates shall not be retired, canceled or destroyed (except when mutilated) but shall be reissued and paid out again and kept in circulation.

The President is presumed to exercise all or part of the above grant-

ed powers whenever in his judgment the following conditions are found to obtain: When (1) "the foreign commerce of the United States is adversely affected by reason of the depreciation in the value of the currency of any other government or governments in relation to the present standard value of gold, or (2) action under this section is necessary in order to regulate and maintain the parity of currency issues of the United States, or (3) an economic emergency requires an expansion of credit, or (4) an expansion of credit is necessary to secure by international agreement a stabilization at proper levels of the currencies of various governments."

Under these provisions "the Federal Reserve Board, with the approval of the Secretary of the Treasury, may require the Federal Reserve banks to take such action as may be necessary, in the judgment of the Board and of the Secretary of the Treasury, to prevent undue credit expansion."—Scottish Rite News Bureau.

Tell 'em about FARMING.

With 56 permanent pasture demonstrations under way, of which the county agent says 32 are in tip-top shape, Red River county is turning definitely toward improved pastures as the basis of farming. F. M. Watkins of Bogata got \$91.06 worth of grazing from an 18-acre improved pasture in the first four months of the year.

Scatter Your Risk

It has been taught, and many believed,
Much human want could be relieved
If all the farmers only knew,
How to raise two blades where but one grew.
But it seems the farmer plays bad bets,
The more he raises the less he gets;
For the word goes out there is a big crop,
Then the market begins to drop and drop.
The Hondo State Bank would like to impress:
By diversification your risk is less.

PIRATES WIN NINTH GAME OF SEASON.

Tom Koch, starting his first game of the season Sunday, easily held the Devine team and registered a 9 to 2 victory. Koch pitched sauteut ball allowing six scattered hits and struck out eleven men. Errors accounted for the Devine scores. The Pirates who have been in a two weeks slump, snapped out of it, and played a fast game in the field, in one inning only did the defense show any signs of cracking. This was the inning in which Devine scored their three runs. Vollmer, who started the game for Devine retired in the fourth with four runs in and the bases loaded. Howell relieved Vollmer and was nicked steadily for hits, which coupled with errors gave the Pirates five more runs.

Next Sunday, June 11, the Pirates will meet a team composed of star players from neighboring towns. Miller Stewart of Hondo is assembling the club and due to the expense connected with this game a small fee

Commissioners Court reconvenes on Monday, May 12th as a Board of Equalization to hear those whose property-assessments have been raised by the Board. We understand a great many raises have been deemed necessary, due, no doubt, to an effort of property owners to scale down property values in line with the decline in property income.

Sheriff Chas. J. Schuehle attended the celebration at the Nueces Bridge opening on Highway 90, west of Uvalde, Thursday. He says there was a big crowd present and all were served with one of the finest barbecues he ever saw. Quite a number of Hondo people were in attendance.

Next Wednesday, June 14th, is the date for the next monthly luncheon of the Hondo Luncheon Club. This luncheon is open for all who wish to attend and pay his own plate cost of 50c. All who can possibly do so should attend. A representative of the San Antonio Public Service Company has been invited to be a guest of the Club on this occasion.

The Sheriff's Department had some excitement one day this week when an excited call came over the wires from Sabinal to watch the highway for a couple of automobile "thieves" who had stolen a car in Sabinal and were headed east. Deputies and highway patrolmen spread a net over the east and west roads leading into town and the "culprits" were soon apprehended. Instead of being a genuine "theft" it was an "extra legal process" resorted to by an automobile dealer in San Antonio to "repossess" a mortgaged car. The claimant of the car got his property back, the "culprits" got to go free and the holder of the mortgage will have to try again.

Sheriff Charles J. Schuehle had his first experience with a moratorium this week. Under an order of execution from court in the foreclosure case of Adams National Bank vs. Howard, he was to sell certain property at a Sheriff's sale Tuesday. But the sale didn't take place. He was stopped by an injunction issued by District Judge Wallace under the moratorium law recently passed by the Texas Legislature. The case is thus left status quo until the higher courts pass on the constitutionality of the act in a test case now pending.

Two years ago self-feeders for hogs were practically unknown in Goliad county. Now they are so common that hog feeding without them is regarded as a sign of poor management. The new system of feeding hogs by self-feeder on rations of corn and equal parts cottonseed meal and tankage, introduced by the county agent, has revolutionized hog raising and has led to the general use of hogs to dispose of corn at a small profit.

The annual prize shoot at the Quibi Gun Club last Sunday and the double-header ball game was enjoyed by a large crowd. We regret not having the list of prize winners and the result of the ball games for this issue of the paper. The event closed with a big dance for the young people in the evening.

Miss Jennette Merritt arrived one day last week from Denton, where she completed her Freshman work at Texas College for Women (CIA), and will spend the summer with her parents, County Agent and Mrs. C. M. Merritt.

A. F. Rihn, the Rimedina merchant and postmaster, was a business visitor to the county seat Friday, and while here paid the printers a pleasant call. Mr. Rihn says his section needs rain but some corn will be made despite the drought.

A crack ball team from Devine played the Hondo Bronchos in Hondo Wednesday afternoon. The Devine boys put up a good play but were out matched by the locals who came out on the long end of a 12 to 1 score.

Mr. and Mrs. Julius Wurzbach and little daughter spent the week-end with Mr. and Mrs. A. L. Haegelin, and Mrs. Wurzbach's brother, Albert, who recently returned from Texas and St. College.

Hondo's monthly Trades Day will be held Wednesday, June 14, on College Square at 3 P. M. Valuable cash premiums will be awarded, and in addition, an enjoyable get-together will be held.

KEMPF-MANGOLD.

Mr. Alfred B. Kempf and Miss Dorothy Thelma Mangold were happily married Wednesday, June 7th, at 7 o'clock A. M., the ceremony being performed in nuptial High Mass, Rev. J. Lenzon officiating.

Dan Mangold, brother of the bride was best man, and Miss Ruby Groff, bridesmaid.

Mr. Kempf is a son of Mr. and Mrs. Albert Kempf and numbers his friends by the score, while his bride is the oldest daughter of Mr. and Mrs. John T. Mangold and was Medina County's Queen at the Hondo Fair in 1931.

We wish them a long and happy married life, in their journey together.

Rural Mishaps Shown To Be More Serious

Less Than Fifth of All Accidents Result in More Than Third of Deaths

Three-fourths of the automobile accidents in the United States in 1932, analyzed by road location, may be regarded as happening within cities and towns. Yet such a preponderance of accidents resulted in less than half the total number of all deaths from automobile accidents.

Less than a fifth of the accidents happened at rural intersections and on highways, exclusive of the number which occurred on curves, railroad crossings, on bridges and under other miscellaneous conditions. Yet these accidents resulted in more than a third of all the deaths. About three and one-half per cent of the accidents happened on curves, as specifically mentioned, yet such accidents resulted in more than 8 per cent of all the deaths. About one-half of one per cent of all the accidents happened at railroad crossings, yet such accidents resulted in about 4 per cent of all the deaths. These facts are shown in a new book setting forth the causes and extent of automobile accidents during last year published by The Travelers Insurance Company.

What are the reasons for the variations between the number of accidents and the number of people killed?

The accidents at street intersections and between such intersections are not as serious in their consequences as the smaller number of accidents in rural sections because the rate of speed of cars in urban districts is much less. The accidents on curves are so serious in their consequences because speed is usually the main factor in the cause of such accidents. The accidents at railroad crossings are so serious in their consequences because the probability of death for everyone in the car is great. On crossings, speed of the motor vehicle may not be as important a factor as in some other types of accidents, but the great energy produced by a train even at a slow rate of speed corresponds to the hazard created by a motor vehicle traveling at a high rate of speed.

It is speed, still more speed, and then greater speed which under many road locations is the all-important factor which drivers fail to keep under control. Speed may be dangerous at 20, 25 or 30 miles an hour, just as it is potentially dangerous at 50, 60 and 70 miles an hour. The latter may be regarded as hazardous under most conditions of travel, even upon the open highway. The lower rates of speed prove to be hazardous also when they are maintained under improper conditions.

Many people wonder where to get the Japanese persimmon. No one can tell. The Japanese persimmon will not grow where there is cotton root rot that we know. But it will grow in the most out of the way and unexpected places of any fruit. On land it looks like they would do well they often fail entirely to grow. I once saw a tree growing in shale dug out of a coal mine. But the same trees refuse to grow on some of our best sandy soil. Land where the red clay is close and only reasonably rich seems to suit the persimmon.
